PSYCHOLOGY INTERNSHIP

https://www.pediatrics.umn.edu/education/additional-training-programs/pediatrics-psychology-internship
Our Mission

The Internship has been accredited for over 50 years by the American Psychological Association Commission on Accreditation. Our tradition of academic excellence ensures high quality preparation for a broad range of career choices. We aim to prepare interns to meet the mental health needs of children, adolescents, and families as psychologists in academic health centers and other clinical contexts.

Child Assessment Training Emphasis

- Pediatric neuropsychologist faculty on all 3 rotations
- Strong preparation for postdoctoral fellowships in Pediatric Psychology, Pediatric Neuropsychology, Child Psychiatry, including our Pediatric Neuropsychology fellowship
- Nationally recognized faculty

Pursuit of excellence in education, service, and research
- Refinement of Profession-Wide Competencies with children and adolescents in:
  - Psychological Assessment
  - Psychotherapy/Intervention
  - Consultation
  - Evaluation
  - Supervision
  - Cultural Diversity
- Development of professionalism and ethical conduct
- Promote professional and scientific interests to establish strong foundations for diverse career directions with healthcare emphasis
- Enhance knowledge related to the psychological and biomedical literatures and to promote broader understanding of the results, limitations, and clinical implications of scientific research
- Year-long, child-focused didactic series
- Competitive stipend and benefits

Each intern completes two of three rotations:
- Child and Adolescent Psychiatry
- Pediatric Neuropsychology
- Pediatric Psychology

Applicants are encouraged to submit 3 rankings to the National Matching Service based on their relative preferences among the rotations using the tracks listed with the NMS. This maximizes interns’ ability to tailor training to their interests and their chance of getting matched with the internship.
